

FOR IMMEDIATE RELEASE

ATLAS Technology Welcomes Chenna Strange to Strengthen Revenue Cycle Management for Subscribers

Las Vegas, NV – September 12, 2025 — ATLAS Technology, a leading provider of healthcare technology solutions (www.atlas-vue.com), is pleased to announce the addition of Chenna Strange to its growing team. Strange will focus on enhancing Revenue Cycle Management (RCM) strategies, ensuring existing subscribers maximize the value of ATLAS Technology's solutions.

With a proven background in CRT/HME operations and client success, Strange brings a wealth of experience in revenue cycle optimization, subscriber engagement, and workflow improvement. Her expertise will support ATLAS Technology's mission to empower healthcare organizations with the tools and insights they need to streamline financial performance and improve patient outcomes.

"We are thrilled to welcome Chenna to the ATLAS family," said Bill Paul, CEO, ATLAS Technology. "Her unique ability to bridge technology with operational excellence will help our subscribers gain even more from their partnership with ATLAS."

In her new role, Strange will collaborate closely with subscriber organizations, working to refine processes, identify opportunities for workflow efficiency, and drive results that directly impact bottom-line performance.

ATLAS Technology continues to expand its offerings and team to better serve the evolving needs of healthcare providers nationwide. With the addition of Strange, the company reaffirms its commitment to delivering innovative solutions and hands-on expertise that help subscribers thrive in today's challenging healthcare environment.

About ATLAS Technology

ATLAS Technology empowers Complex Rehab Technology and Home Medical Equipment providers with industry-leading, AI-driven revenue cycle management software. Through a collaborative, multi-algorithm approach, we drive operational excellence, financial performance, and optimal patient outcomes. As a trusted partner, we remain agile in adapting to regulatory changes and advancing technology—committed to continuous improvement and long-term success for our clients and the patients they serve.

Founded in 2010 and located in Las Vegas, Nevada, ATLAS Technology LLC supports CRT/HME providers with a set of comprehensive tools and services for business optimization and enhanced patient experience. The ATLAS Technology family of products includes ATLAS RCM Software, ACES-ATP Clinical Evals Software, RxWeb and ATLAS-FIOS Services.
