FOR IMMEDIATE RELEASE

RxWeb Joins Forces with ATLAS Technology for Enhanced CRT Software Solutions

Las Vegas, NV - 8/8/25 - RxWeb (formerly Rehab Accelerate) a trusted leader in front end documentation and ATP rehab software, is pleased to announce RxWeb has joined forces with ATLAS Technology (www.atlas-vue.com), creators of the innovative ATLAS RCM platform, the #1 CRT Workflow software.

This collaboration brings together RxWeb's long history in CRT with ATLAS Technology's next-generation revenue cycle management platform to deliver future-forward solutions for Complex Rehab providers. "This collaboration reflects our shared vision to empower the CRT industry through accessible, scalable technology," said Steve Garand, CEO of ARTSCO, Inc. and creator of RxWeb, Rehab Accelerate, and Rehab Anywhere; "Together with ATLAS Technology, we're committed to equipping Complex Rehab providers with the tools they need to drive operational efficiencies, faster Eval to Delivery times, and patient satisfaction."

ATLAS is the leader in CRT Workflow software, designed to support the complex needs of ATPs, their referring clinicians, continuing through medical billing and collections. One platform, intuitively written for complex CRT workflows, claims management, electronic health records, and revenue cycle management. By integrating RxWeb strategic front end ATP solutions and documentation features, the collaboration will combine the two market leaders in CRT software.

"We're excited to join forces with RxWeb, a company whose long commitment to innovation in CRT aligns perfectly with our mission," said Bill Paul Founder of ATLAS Technology. "Their insight into the unique challenges faced by rehab suppliers makes them an ideal collaborator as we expand ATLAS RCM's reach and impact."

Our collaboration underscores both companies' commitment to advancing the digital infrastructure of the Complex Rehab Technology industry and supporting rehab providers in delivering meaningful software solutions, business efficiencies and patient outcomes.

About ATLAS Technology
ATLAS Technology empowers Complex Rehab Technology and Home Medical Equipment providers with industry-leading, AI-driven revenue cycle management software. Through a collaborative, multi-algorithm approach, we drive operational excellence, financial performance, and optimal patient outcomes. As a trusted partner, we remain agile in adapting to regulatory changes and advancing technology—committed to continuous improvement and long-term success for our clients and the patients they serve.

About ARTSCo, Inc.
ARTSCo, Inc. developed Rehab Anywhere, Rehab Accelerate, and RxWeb, a web based front end Complex Rehab Technology software. With over 60+ manufacturer's order forms digitally available and data fields that pull through each front-end form including home assessment, DPD and PO, RxWeb is a market leader for ATP assessment documentation. With a focus on innovation, user experience, and mission-driven design, RxWeb helps CRT providers strengthen rehab operations and expedite documentation.
